Providing flights for the yachting industry, offshore personnel, cruise ship industry and companies associated with the marine world. Whatever class of fare you require, Blue Marine Travel can assist.

We specialise in marine travel, however we can furthermore book published and low cost fares. Our fee structure is highly competitive and is a result of many years' experience and specialism in marine travel.

A high level of understanding of the marine travel world, as well as appropriate and efficient systems and procedures, help provide a seamless service. We know it is often important for clients to have the ability to change itineraries and our marine fares offer the additional flexibility required. Our fares are mostly fully refundable or changeable fares.

We constantly monitor patterns of travel and booking requests to ensure clients receive true value from THEIR relationship with Blue Marine Travel.

24/7 PHONE & EMAIL RESPONSE

24 hours a day, 7 days a week, 365 days a year.

Your email or call will be answered efficiently by one of our experienced full time employees.

We have a single dedicated telephone number which is answered by the first available consultant immediately, without the delay of a call centre messaging service.

TIME SAVING & COST EFFECTIVE

We aim to reduce your spend on travel. We have airline marine contracts with all major airlines. It takes time to build a relationship and good reputation with carriers and we have been successful at this task.

This approach has given us the ability to provide you with the best possible fares available when requesting a quotation. Our policy is to find the most cost efficient direct route possible. However we will happily look at routes provided by clients or preferred air lines. We also aim to reduce the time you spend on searching for travel.

MULTICURRENCY QUOTATIONS & BILLING

We can offer quotations and billing in GBP, USD, AUD, NZD and Euros.

Our invoicing includes the following information.

- Passenger name
- Full routing
- Vessel name
- Currency value

However we can tailor make reporting options to your requirements.
